Bullets for New Oil and Gas Rules.docx

Sounds good Jody - will put it in my calendar and call in at 9 tomorrow! Thanks so much! Here are our bullets for a high level view of what we are thinking for permit by rule. Thanks!

Hi Sheila,

How about 9 a.m. tomorrow? Claudia is telecommuting, so let's use this call-in number:

866.299.9141

Passcode: 50577803

Thanks,

Jody

Hey there - sorry, left last Thursday for a spring break trip and got home last night. So how about a call this week to talk through some of this? I have a very free week, so anytime works for me. I would like to have my engineer Todd Wetzel on the call too, and he telecommutes on Thursday and I am off this Friday, so I guess it would be today or tomorrow if we can get a time to talk. Appreciate your time, thanks!!

I am pretty available the rest of today and all day tomorrow for a call. Jody?

Thanks,

Claudia

Hello - hope you survived the blizzard yesterday, how crazy! So I am attaching a draft high level, conceptual bullet list of what we are currently thinking about for our permit by rule approach. I was just wondering what you were thinking of doing with

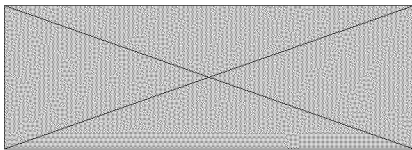

dehydrators? I am still learning about these and my folks here are not sure what to do and wondering if we could maybe get an understanding of the direction you are heading in? Not sure if you are able to or if we can discuss on phone, thanks so much!

Sheila
